2. Close discount popup
3. Login into your account
4. In the header click on your name to enter your account page
5. In the "Profile settings" click "Edit"
6. Click on "Save changes" multiple times

Expected result:
The website will save changes one time, and show one "success" window

Actual result:
While clicking for example 10 times, the website will be lagging a bit, then showing you a lot of "success" windows with loading animations, making saving operation a lot of times
